

WHITE PAPER

SUMMARY

This paper will attempt to summarize both Klub Kozmik and the Ozone capital token project.

First, what is Klub Kozmik?

Klub Kozmik is a collection of people from all over the world and from all walks of life. They share a desire to be part of a larger movement focused on generating and sharing information regarding crypto and digital assets.

Derived from this information is the ability to create new crypto revenue streams and systems for long term wealth generation.

Second is the Ozone capital token and its relevance to Klub Kozmik.

The Ozone capital token is a utility based non-fungible-token membership to Klub Kozmik.

With it come member rewards and the ability to generate passive crypto streams for those members.

Klub Kozmik members share in projects created and earn crypto depending on their number of tokens held and their time of admittance to the Klub.

Some of these ways include;

Sales of the Ozone capital tokens. Rewarding members through crypto as tokens are sold.

The Kozmik virtual **shopping** experience. Buyers using only crypto to purchase tangible real world items like cars, houses and collectibles.

The Kozmik assets **portfolio**. This portfolio is a collection of digital assets and real world commodities.

Klub Kozmik **events** access. Events created and focused around music, crypto and nft communities globally.

1. Ozone Capital token sales.

Buyers of the Ozone capital token earn crypto as more tokens are delivered. Holders of the token can also earn crypto by helping new buyers acquire the Ozone capital tokens. Holders can also earn bonus Ozone tokens through bulk purchases of tokens.

2. Kozmik Marketplace.

Our developers have been working on this project for the past year to build out a shopping mall experience from your seat at home using only Crypto.

This experience will be offered in a web version and expand to be a 3D Metaverse.

We have partnered with key businesses that are looking for an opportunity to sell their items taking Crypto. Unfortunately, with crypto still being early in adoption, many don't have the time or resources to accept this as payment.

This is where we come in. Klub Kozmik's Marketplace will be an easy way for our Partners to list their products "Tangible", real world items for sale. As a buyer you can easily search products that interest you and buy them using Crypto. There will be buyer and seller fees to use these services which is where Crypto earnings will come from.

Our Marketplace will be open to the public to shop and buy using their crypto at any time. We will continue to add vendors with their own store fronts to offer amazing tangible items to our customers.

What type of products should you expect to see in the Marketplace?

Everything from Sports cars, Rolex watches, Sports Cards and Collectibles, Comic Books, Gold and silver coins, future homes, weekly rental properties and more. The goal is to create an amazing seamless experience for all our vendors and customers to use.

3. Kozmik Portfolio.

Our team will be busy buying collectible sports cars, vacation rentals, beach houses, condos and more. Anytime we rent or sell any of these items using Crypto, the earnings will be divided between the house and all holders at that time.

The options for this program moving forward are endless.

4. Kozmik Event Token.

Our goal is to continue to develop and educate our team members and holders around Crypto, NFT's, Investing and more. We will be hosting live and virtual training events to continue to help educate those new and old around the future of Crypto, NFT's and tokens. On top of that will be holding in-person events which will require purchase of a special token to attend. We will be using tokens as our ticket holder to prevent any fraud and to allow clients to have a true keepsake after each event. Our members will get the first option to buy into these events before we push the sale to the public. Some of these events will include VIP at F1 Races and more. All Crypto Earnings from any of these events will be split between the house and all holders at that time.

5. Kozmik Gaming Solutions and Token.

Our team has been tirelessly looking into many different options to be able to grow our own Gaming Token and offer single player elimination games .. There will be fees (Purchase Tokens to enter) that give the entry the ability to play and earn Crypto Earnings at the same time. There is a huge opportunity here, but we want to put 100% of our focus on growing and building out the other opportunities prior to diving into this beast. The options and future Crypto earnings are endless and we are just as excited to finalize, develop and market this as you are.

Bonus

We are offering a Referral Fee to any tokens sold by current holders and receive a 250 Tez Bonus for each token sold to your network. Now remember there are only 5,000 Ozone Capital Tokens Available for sale, so you better act quick. We also have the option to buy or sell 10 tokens and receive 1 free. Our main goal is to give back to our Token holders any opportunity we have. We are building a community of like minded people to learn and grow for many years to come.

Where are the proceeds going that were raised through the Ozone Capital Token sale?

The main proceeds from the first sale of tokens will go to fund and finalize the development of the marketplace. Once it's finalized, we have a budget set aside to fund our Marketing and Advertising efforts around the new Marketplace Platform. We want to ensure everyone knows about the Marketplace and can learn how to possibly become a seller and or a buyer.

Secondly, we will be using funds to put together our first live event. This will be a social event where all token holders are invited to attend, meet one another, and learn more about the projects and where they are in development and launch. We want our members to be the first to know all the details of each project so they can help not only support but market to their inner circle.

TIMELINE

The timeline and roadmap of this project are performance based and not fixed to any calendar schedule.

The overall success of the Ozone token project is in great part determined by the members.

Instead of spending millions on elaborate marketing and advertising we feel that the members are the greatest way to proliferate the project.

The Ozone token project started in May of 2022. The primary function of the Ozone token project is to act as a catalyst for the creation and implementation of the Klub Kozmik asset and revenue systems.

Those systems include but are not limited to, The Kozmik shopping experience, the Kozmik asset portfolio and the Kozmik events access memberships.

Imagine using only crypto to purchase cars, boats, houses and concert tickets. On demand and for anything you can find through any vendor's inventory online.

The virtual shopping experience and asset portfolio go live once 30% of the Ozone tokens have been distributed.

FAQ'S

What is a token in NFT?

NFTs are unique cryptographic tokens that exist on a blockchain and cannot be replicated. NFTs can represent real-world items like artwork and real estate. "Tokenizing" these real-world tangible assets makes buying, selling, and trading them more efficient while reducing the probability of fraud.

How do you explain cryptocurrency?

In simple words, cryptocurrency is a digital asset. The name originates from the fact that all of its transactions are highly encrypted, making the exchanges highly secure. It is decentralized in nature, unlike traditional currencies, which are managed and controlled by a central authority.

Who is the Tezos Blockchain?

Tezos is a decentralized open-source blockchain that can execute peer-to-peer transactions and serve as a platform for deploying smart contracts. The native cryptocurrency for the Tezos blockchain is the tez which has the symbol XTZ. The Tezos network achieves consensus using proof-of-stake

Why use Tezos?

Tezos is not only a very popular blockchain used by hundreds of artists and celebrities but it one of the most environmentally friendly proof of stake systems ever created.

You'll find companies like Red Bull and Red Bull Racing, McLaren Racing and Doja Cat on the Tezos blockchain.

What is a Marketplace?

An online marketplace is a type of e-commerce website where product or service information is provided by multiple third parties. Online marketplaces are the primary type of multichannel ecommerce and can be a way to streamline the production process.

- the arena of competitive or commercial dealings; the world of trade. **“the changing demands of the global marketplace”**

DISCLOSURES

What can I expect?

A great time with great people. The Klub Kozmik community is meant to be shared and help connect like minded individuals with amazing opportunities.

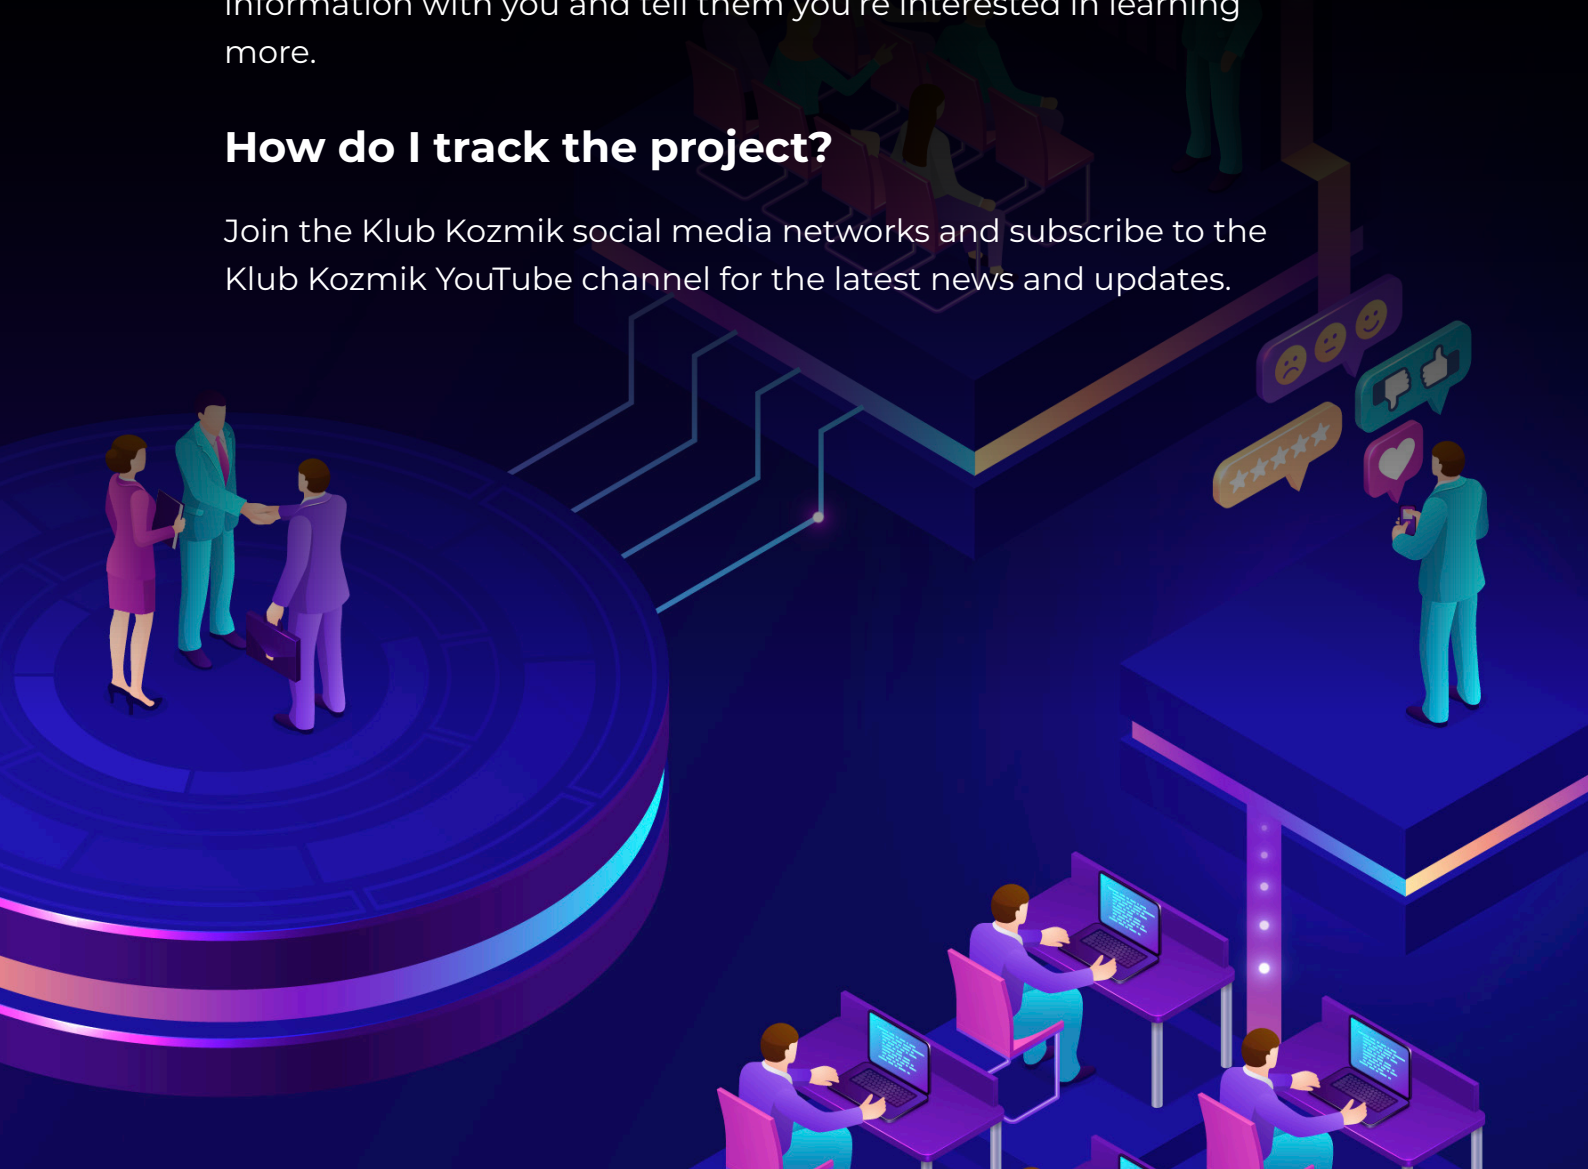

Not only will you have a chance to grow your own crypto assets, but we hope you'll encourage others to join.

How do I get started?

You can start by contacting the person that shared this information with you and tell them you're interested in learning more.

How do I track the project?

Join the Klub Kozmik social media networks and subscribe to the Klub Kozmik YouTube channel for the latest news and updates.
